## Description

Job Title	<b>Operations &amp; Maintenance We are looking for more engineering talents</b>
Location	<b>Valby</b>
Organization Name	<b>Operations &amp; Maintenance</b>
Professional Area	<b>Engineering</b>
Department Description	

## OPERATION & MAINTENANCE WE ARE LOOKING FOR MORE ENGINEERING TALENTS

### Brief Description

As more producers are entrusting us with the O&M of their plants this is one of the fastest growing areas of FLSmidth. We are looking for degree qualified Mechanical, Electrical and Chemical Engineers with experience of cement plant operation to expand our teams of plant-based professionals that manage our Operation & Maintenance activities around the world.

### Detailed Description

#### **Ensure smooth plant performance**

Depending on experience, your role could be to head up or be part of a team that ensures the smooth performance of the plant.

Responsibilities include:

- advanced team management
- plant optimisation
- technical and financial reporting
- management of administration and documentation systems
- quality control
- development and implementation of preventative and planned maintenance programmes using modern MMS tools
- hands on supervision, training and development of the local work force

We can offer an interesting range of worldwide assignments lasting from a few months to a number of years where you can develop your full career potential.

### Job Requirements

#### **Engineer with several years' experience from the cement industry**

You need to have several years' experience of successful plant operation or maintenance and an ability to use your knowledge and experience to solve practical problems. This must be backed by good communication and language skills. English is a must and other languages such as Russian, Portuguese or French would be a real advantage. If you enjoy travelling and working in a multicultural environment, then this could be the job for you.

## Additional Details

**Contact and application**

As an FLSmidth employee, you will enjoy a wide range of benefits, including individual training and further education, an attractive salary package, pension and insurance plan.

Questions about the positions may be directed to Senior Advisor, Egon Toft, at [evt@flsmidth.com](mailto:evt@flsmidth.com). Please apply by clicking "apply" on this page. The application deadline is 29 April 2013. Please state where you saw the ad and have reference no. IRC7955 ready at hand when you contact us.

## How To Apply

*FLSmidth is an international engineering company with an annual turnover of app. EUR 3.3 bn. We are the world's leading supplier of plants, machinery, services and spare parts to the cement and minerals industry. To maintain our market leading position, we invest massively in technological innovation, R&D and training of our 15,900 employees worldwide. Visit [www.flsmidth.com](http://www.flsmidth.com) for further information on our business and services".*
