Alfa Laval Copenhagen A/S, Engineering & Supply in Søborg, is looking for an

## Oil & Gas Project Engineer

**Engineering & Supply handles projects, designs and delivers components, process modules and complete systems within the Alfa Laval group. We are experiencing a very positive development within our Oil & Gas projects and, therefore, are looking for an experienced project engineer to strengthen our team, which supplies Oil & Gas industry with fresh water generators.**

With this position you will be involved in every stage of projects, from initial offer to final delivery to our customers. You will be part of a strong team who is working closely together in smaller groups with design, engineering and delivery of fresh water generators globally.

You will work in an international environment with a large cross-disciplinary interface both internally and externally.

### Key tasks

- Participate in project execution on larger projects
- Assist project managers with technical support during project execution
- Follow-up on projects, incl. deficiency lists, etc.
- Assist in all project related tasks
- Function as a project manager on smaller projects
- Participate in bidding / quotation work
- Evaluate/settle specifications and ensure correct documentation for customers
- Technical support to the O&G applications
- Function as a link between purchasing and engineering.

### Your background

- You have an engineer degree
- You have got an experience with working as a project engineer on big projects
- Experience with international engineering codes and standards such as ATEX, ASME, NORSOK, and the Machinery Directive is an advantage
- You have knowledge of piping systems
- You are an experienced and motivational person with clout
- Your work approach is constructive, structured and systematic
- Experience from Oil & Gas or Nuclear business is an advantage
- You have a good cross-cultural awareness.

### We offer

- A job in a growing, international organisation with many contacts and carrier opportunities
- A result-oriented working environment
- Good development opportunities, both professionally and personally
- Motivated and committed colleagues working in a positive and informal atmosphere
- A salary that matches your qualifications and an attractive pension and health care scheme.

### Further information

For more information please contact Engineering Manager Palle Efland on Tel +45 27 77 85 57.

You are welcome to send your motivated application and CV via link no later than 14<sup>th</sup> April 2013.
